

KLOVE strongly serves me and my family as a resident of our local community by the family music, commentaries, and values it offers during all times of the day. It is educational, informative, and provides a strong sense of belonging and Christian values to my family (5 children of various school ages). To lose the ability to listen to KLOVE and the products it offers, would weaken the connection my school age children feel their Christian values have within the community which is a vital part of bringing up children who will add value to the community versus disrupt it. Hearing the value and comments made on KLOVE has strengthened the community leadership and willingness to offer more from my children, our family, and our neighbors. It really aides in supporting the value of "better", "honesty", "community", "stewardship", and "support" within the means and lifestyle that we provide to our children. Please do not replace the signal and services I receive from KLOVE with an LPFM station. Thank you and God Bless
